

Recycling is easy!

Collect your recyclables into two boxes and place at the curb on your regular compost collection day.

Recycling can reduce your household's waste by nearly half!

Curbside is Coming!

Week of May 9th

Green Box

Curbside is Coming!

Week of May 9th

Place your recycling boxes in a convenient location in your home. Sort your recycling into the two boxes, ready for curbside pick up on your regular compost collection day.

The **Blue box** is for your paper and cardboard.

The **Green box** is for your containers – plastic, milk & metal.

If you need additional recycling boxes they can be purchased at local hardware stores. Don't worry if it isn't a green-coloured box, just make sure you don't mix your containers and your papers together in the same box.

Oops – If you do make a mistake, you may discover an 'Oops' sticker on your box, and material may be left behind. It is important to make sure your containers and papers are separated into different boxes and consult the list for unacceptable items.

Tips:

Place items loose in the boxes. Do not bag items.

Except:

- Shredded paper which should be placed in a clear plastic bag, or paper bag and placed in the paper box.
- Plastic bags which should be stuffed into one plastic bag and placed in the containers box.

The lid can be used on either box. On windy or rainy days, please put the lid on the paper box and put the paper box on top of the other box.

Plastic containers and tins may be flattened to make more room.

Please flatten all boxes.

Corrugated cardboard should be flattened and placed under or between boxes, or tied in bundles no larger than 30" x 30" x 8" (76cm x 76cm x 20cm).
